This Catalogue contains the names of fifteen hundred and twelve shells, divided into one hundred and ninety-seven genera; and the collection contains about as many more species which are not yet determined.

Collectors desirous of exchanging recent shells, will please direct to me at No. 22 Bond-street, New-York. Duplicates of the American Unios always on-hand.

Correspondents will confer a favor by marking the locality of all shells they may send in exchange. Duplicates of the shells in this Catalogue will be as acceptable as those that are not, provided they are fine specimens.
